

Airdri

Hand Dryer Design & Development
Eynsham, Oxfordshire

Details

Size: 600 Sq M

Value: £167K

Duration: 12 weeks

The Brief

This exciting commission involved the conversion of Airdri's first-floor warehouse space into a fully functioning open-plan office: encompassing the space planning and design by Meridian Interiors, and the full refurbishment and fit-out by sister company Meridian Office Furniture Ltd.

Project Scope

- Space planning & design
- Project management
- Electrics & data cabling
- Acoustic insulation
- Fire & sound partitioning
- Office furniture

Group Companies Involved

- Meridian Interiors Ltd
- Meridian Office Furniture Ltd

Our Solution

On demolition of Airdri's blockwork offices in the old warehouse, Meridian Interior's project team worked to implement the space designs for the proposed open-plan office, kitchen/WC areas and server room.

The electrics – both lighting and power – were reconfigured, and acoustic performance fully optimised, using acoustic insulation above the ceiling tiles and white 75mm fire/sound partitioning for the new cellular offices. Integral white blinds and oak doors completed the £140K refurbishment.

Subsequent revisions to the space plan were made, to: maximise the environment for several departments, create single offices for heads of department and allow for future expansion. Meridian Office Furniture Ltd then completed the £27K office furniture fit-out in just three days.
