

Pharmathen

Pharmaceuticals
St Albans, Hertfordshire

Details

Size: 320 Sq m

Value: £35K

Duration: 3 weeks

The Brief

The transformation of this open-plan office space to create attractive new cellular offices, a boardroom and tea point, was completed in just 3 weeks to meet our client's relocation date. The practical aspects included the requirement to create a bright, airy environment for each individual office, along with provisioning for all data cabling and power needs.

Project Scope

- Partitioning: solid dividing walls with glazed fronts
- Doors, finishes and ironmongery
- Data cabling/AV cabling
- Creation of boardroom and tea point facility
- Project management

Group Companies Involved

- Meridian Interiors Ltd

Our Solution

Office partitioning - incorporating solid dividing walls and fully-glazed office fronts – was used to help maximise the flow of natural light.

The cellulose sprayed finish on the doors was complemented by stainless steel ironmongery, and a practical, yet inviting 'tea point' area was created – comprising oak-effect vinyl flooring, contemporary white kitchen units and a breakfast bar.

“ *Meridian’s professionalism, expertise, and design flair was very evident from our first meeting. We have not been disappointed. Their whole team went above and beyond our expectations. We are really pleased with the results.* ”

Maria Gaudio, Pharmathen UK Ltd
